STATINTL

[REDACTED] issued the SAFE computer hardware request for proposal (RFP) on 1 April 1980. Proposals from prospective contractors are due in mid-May, with final selection scheduled for early August. [REDACTED]

New Computer Installed

The Amdahl 470/V7 computer was cabled into an initial MVS batch configuration on 29 March. Since that time the machine has run general MVS batch in the Ruffing Center with few problems. [REDACTED]

Availability Goals Exceeded for Data Base Systems

ODP has established 1980 availability goals at 96% for the three data base systems using GIMS: GIMDEV, GIMPROD, and CAMS. The availability goal includes all hardware and software from the COMTEN terminal controller to the CPU. The statistics for the first quarter of 1980 show that we have exceeded our goal on all three systems. The three month availability statistics are: GIMDEV 97.86, GIMPROD 97.87 and CAMS 96.66. [REDACTED]

Record Number of Student Trainees in Process for ODP

ODP Personnel is currently processing 18 Student Trainees who will be working in Processing and Applications from June through December 1980. This is the most ODP has ever had under consideration and reflects the growing interest of students in ODP and the success of our efforts to attract computer science specialists to ODP. (DC/AS)
